

Assisi Bridge House
600 Bull Run Road Schriever, Louisiana 70395

Assisi Bridge House 2008 Annual Report (Admissions from 2007)

Admissions in 2007:	51 residents
Rate of Occupancy:	94% of capacity
Average Length of Stay:	108 days
Length of stay 0 - 30 days:	8 residents (16% of the ABH population)
Length of stay 30 - 90 days:	10 residents (17% of the ABH population)
Length of stay 90+ days:	33 residents (65% of the ABH population)
Sober one year (qualified):	72% (23 of 32 former residents with 90+ days who we have been able to contact)
Sober one year (unqualified):	51% (26 of 51 former residents. There may be more sober former residents but we have been unable to contact them).

We have been able to stay in touch with 32 of the 33 residents who remained in the Assisi Bridge House for over 90 days. Seventy-two percent (72%) of those 32 residents stayed sober for at least one continuous year. We have lost contact with a number of the residents who stayed less than ninety days. The 23 residents reported here sober for one year, plus 3 other residents with less than 90 days for whom we have been able to verify a year's sobriety, represent 51% of the total 2007 admissions of 51 residents. There may be more former residents with one year's sobriety, but we have been unable to contact them.

Independent Living Program

Admissions in 2007:	13 residents
Rate of Occupancy:	57%
Average Length of Stay:	64 days
Sober one year (qualified and unqualified):	77% (10 of 13 former residents)

Ten of the thirteen men admitted to the ILP in 2007 stayed sober for one year.
